

VISION

Cebu Doctors' University envisions a dynamic, globally-acknowledged health and service-oriented educational institution.

MISSION

Cebu Doctors' University is committed to produce competent, compassionate, dedicated, socially-accountable, and God-centered professionals sensitive and responsive to local and global challenges.

GOALS

1. Develop a holistic man capable of answering the needs of self, family, and society through education and service
2. Develop in the students critical analysis and decision making capability through research and experiential teaching-learning processes
3. Instill in students a deep sense of responsibility, sensitivity to the finer qualities of life, and the preservation of the Filipino cultural heritage so they can be partners in the development of national goals and international understanding
4. Provide students with an academic atmosphere conducive to their intellectual, moral, and cultural development necessary for their personal and professional growth

- a university system that runs in accord with national and international standards, and
- a learning environment that caters to the demands of all students of the new generation!

**AVOID DELAYS !
AVOID UNDUE EXPENSES !
AVOID BRIDGING PROGRAMS !**

Senior High School

CEBU DOCTORS' UNIVERSITY

The CDU Senior High School

Basic education is vital to the pursuit of higher education. It is therefore necessary that students in secondary schools are assured of quality instruction and exposure so that they become ready and competent to confront the challenges and rigors of college life.

Cebu Doctors' University (CDU) will commence the operation of its Senior High School (SHS) effective academic year 2016-2017. Guided by its vision, mission and goals, and utilizing its pool of highly competent teachers and state-of-the-art facilities, the CDU Senior High School (Grade 11 and Grade 12) will begin implementing its enhanced curricula specially designed to exceed the minimum requirements set by the Department of Education (DepEd). Also, by setting its curricular approaches in accord with international standards, SHS students and parents are assured of the quality of CDU education that guarantees global competitiveness for all its graduates.

It is noteworthy to stress that, being primarily a health-oriented academic institution, all CDU-SHS subjects of whatever track or strand are directly aligned to the demands of all CDU college degree programs. Therefore, CDU-SHS graduates are assured that they will automatically be qualified to go straight to any CDU college degree program of their choice without the need to undergo any bridging program or pre-requisite subject.

With almost half a century of existence, CDU continues to uphold a culture of proven excellence that enables it to produce successful professionals working in the various fields of healthcare and other services in the different corners of the world.

A College-Integrated SHS Student Life

College readiness is one of the most important aims of the Senior High School. Thus, it is important that SHS students be exposed to college activities within and outside the walls of the university campus.

In CDU, all SHS students will have the opportunity not only to mingle or interact with college students but also to join in all relevant and appropriate activities, whether co-curricular or extra-curricular, including academic, sports and other forms of competition. The multi-cultural atmosphere of the university and its policy of non-discrimination will certainly contribute to the growth and development of every CDU senior high school student.
