

MESSAGE

from the

UNIVERSITY PRESIDENT

and

CHAIRMAN OF THE BOARD

Welcome all Senior High School enrollees to the CDU family!

You have just made the right decision by coming to the right place at the right moment of your life. The preparations for a lifelong professional or vocational career of your choice cannot be left to chance but must begin with an assurance that a strong academic foundation has been laid down on a stable ground. On June, 2016, our country will open a new academic year with a strengthened basic education system through the introduction of the Senior High School (SHS). We gladly embrace it with vibrant enthusiasm and confidence knowing that we will definitely continue to rise up and excel amidst this new challenge.

To start with this exciting journey, we ensure that, as CDU-SHS students, you will be staying in our safe and secure university campus that provides a multicultural environment and sophisticated learning facilities. With our competent teaching force as well as advanced curricular design, you can expect to receive nothing less than the highest quality of instruction and exposures you deserve to become fully developed and globally competitive individuals.

Inasmuch as college readiness is one of the vital goals of the senior high school, it is important that you will experience a college-integrated life during these years. You will be moving in and around the campus just like any of our college students. Thus, while faithfully adhering to the basic education curricula, you will also have every opportunity to participate in all appropriate and relevant college activities. This will not only enhance the total development of your being but will also deepen your awareness of the nature and demands of higher education particularly in your intended field of specialization.

Finally, be informed that all CDU-SHS tracks or strands consist of courses that are designed to meet the requirements of all our academic programs in the tertiary level. Therefore, after your CDU-SHS graduation, you will automatically be qualified for admission to any of our CDU college academic programs relevant to the SHS track or strand you have successfully completed.

Thank you.

DR. POTENCIANO V. LARRAZABAL, JR.
